

Follow the steps below to install the TPE Weather Roller APK onto your Android device.

#### Before You Begin:

Android phones don't allow APKs from outside the Play Store by default. You'll need to allow your device to install apps from unknown sources.

#### Steps to Install the APK

##### 1. Transfer the APK to Your Device

##### 2. Enable Unknown App Installations

When opening the APK file, your phone may block the install. Do this to allow it:

When prompted, tap Settings or Allow.

Enable "Allow from this source".

Go back and tap the APK file again.

You can also manually enable this in:

Settings > Apps & notifications > Special app access > Install unknown apps

Then choose your file manager or browser and toggle Allow.

##### 3. Install the APK

Open your Files or Downloads app.

Tap the TPEWeatherRoller.apk file.

Tap Install.

Wait for installation to finish.

##### 4. Launch the App

Once installed, tap Open to launch the app.
